<p>[REDACTED]</p>			<p>[REDACTED]</p>
<p>CERCLA/EPCRA Reporting Requirements for Air Releases; SAN 5484; Significant (OMB Confirmed) In response to petitions and mediation, EPA sought (and was granted) a voluntary remand without vacatur of the 2008 "CERCLA/EPCRA Administrative Reporting Exemption for Air Releases of Hazardous Substances from Animal Waste at Farms" which established exemptions from certain reporting requirements under CERCLA and EPCRA.</p> <p>In this action, EPA is reconsidering the Final Rule based on (1) policy choices that were initially made in the promulgation of the Final Rule, (2) views that were articulated by the Parties during the mediation process and (3) additional data that is now available. The additional data includes data that was collected as part of the National Air Emissions Monitoring Study (NAEMS). EPA's Science Advisory Board (SAB) is currently evaluating draft emissions estimating methodologies (EEMs) based on the NAEMS data.</p>	<p>NPRM 2014</p> <p>Final Long-term</p>		<p>2nd (medium) or 3rd tier (low) priority This should be a low priority/3rd tier because the science used (determining Emissions Estimating Methodologies) developed by EPA's OAR will have gone through extensive public review and comment (thus well known and accepted). The concerns outside of OSWER can be addressed through informal discussions and/or side agreements made during the tiering process.</p> <p>On January 15, 2009, Waterkeeper Alliance, Sierra Club, the Humane Society of the United States, Environmental Integrity Project, the Center for Food Safety, and Citizens for Pennsylvania's Future (collectively, "Waterkeeper") filed a Petition for Review of the Final Rule. The petition challenged the exemptions under both CERCLA and EPCRA. On March 17, 2009, the National Pork Producers Council filed its Petition for Review challenging a portion of the Final Rule that amended the EPCRA regulations. The two cases were consolidated. On February 11, 2009, the National Chicken Council, National Turkey Federation, and U.S. Poultry & Egg Association moved to intervene on behalf of EPA to assert their interests in the Final Rule. The case was held in abeyance so that the Parties could participate in the D.C. Circuit Mediation Program. While the mediation process did not resolve the issues raised by all of the Parties, it did raise issues warranting reconsideration of the final rule by EPA. As such, EPA sought and received a voluntary remand, without vacatur of the Final Rule during the re-evaluation period.</p>

			<p>Additional data pertinent to the rule has been collected as part of the National Air Emissions Monitoring Study (NAEMS). The Science Advisory Board (SAB) is evaluating draft emissions estimating methodologies (EEMs) based on the NAEMS data. Because EPA intends to use the final EEMs as part of the proposed rule, the schedule for the publication of the proposed rule is dependent on a timely finalization of those EEMs.</p> <p>--To the extent we have discretion, how important is it to get the action done in this time (relative to other actions) and why? (Address high, medium, low priority of this action.)
